CONTENTS

JANUARY 1991 VOLUME 117 NUMBER 1

The New Phytologist. An approaching centenary: its contribution to the plant sciences . 1

The Tansley Fund of *The New Phytologist* Trust 2

Perception and response to gravity in higher fungi – a critical appraisal. By DAVID MOORE 3

Tuberculate mycorrhizas of *Castanopsis borneensis* King and *Engelhardtia roxburghiana* Wall. By I. HAUG, R. WEBER, F. OBERWINKLER and J. TSCHEN 25

Mineral nutrition and mycorrhizal infection of seedling oak and birch. I. Nutrient uptake and the development of mycorrhizal infection during seedling establishment. By A. C. NEWTON and C. D. PIGOTT 37

Mineral nutrition and mycorrhizal infection of seedling oak and birch. II. The effect of fertilizers on growth, nutrient uptake and ectomycorrhizal infection. By A. C. NEWTON and C. D. PIGOTT 45

Mineral nutrition and mycorrhizal infection of seedling oak and birch. III. Epidemiological aspects of ectomycorrhizal infection, and the relationship to seedling growth. By A. C. NEWTON 53

Enzymatic studies on the metabolism of vesicular–arbuscular mycorrhizas. V. Is H^+-ATPase a component of ATP-hydrolysing enzyme activities in plant–fungus interfaces? By V. GIANINAZZI-PEARSON, S. E. SMITH, S. GIANINAZZI and F. A. SMITH 61

Influence of nitrogen on accumulation of isosojagol (a newly detected coumestan in soybean) and associated isoflavonoids in roots and nodules of mycorrhizal and non-mycorrhizal soybean. By D. MORANDI and J. L. LE QUERE 75

Mobilization of nitrogen in swards of *Trifolium subterraneum* L. during regrowth after defoliation. By R. A. CULVENOR and R. J. SIMPSON 81

Some aspects of the kinetics of cadmium and thallium uptake by fronds of *Lemna minor* L. By K. H. M. KWAN and S. SMITH 91

Rapidity of cellular changes induced by zinc in a zinc-tolerant and non-tolerant cultivar of *Festuca rubra* L. By M. S. DAVIES, D. FRANCIS and J. D. THOMAS 103

Seed developmental patterns in *Banksia attenuata* R. Br. and *B. laricina* C. Gardner in relation to mechanical defence costs. By W. D. STOCK, J. S. PATE and E. RASINS . 107

Population variation in *Spartina anglica* C. E. Hubbard. I. Evidence from a common garden experiment. By J. D. THOMPSON, T. MCNEILLY and A. J. GRAY 115

Population variation in *Spartina anglica* C. E. Hubbard. II. Reciprocal transplants among three successional populations. By J. D. THOMPSON, T. MCNEILEY and A. J. GRAY . 129

Population variation in *Spartina anglica* C. E. Hubbard. III. Response to substrate variation in a glasshouse experiment. By J. D. THOMPSON, T. MCNEILLY and A. J. GRAY 141

Precociously developing individuals in populations of chickweed [*Stellaria media* (L.) Vill.] from different habitat types, with special reference to the effects of weed control measures. By D. BRIGGS, H. HODKINSON and M. BLOCK 153

Studies in the vegetational history of the Northern Pennines. IV. Variations in the composition of the late Flandrian forests and comparisons with those of the early and mid-Flandrian. By JUDITH TURNER and JOYCE HODGSON 165

FEBRUARY 1991 VOLUME 117 NUMBER 2

The Tansley Fund of *The New Phytologist* Trust 175

Terrestrial rhizophytes and H^+ currents circulating over at least a millimetre: an obligate relationship? By JOHN A. RAVEN 177

Towards an understanding of the differences between the blepharoplasts of mosses and liverworts, and comparisons with hornworts, biflagellate lycopods and charophytes: a numerical analysis. By KAREN S. RENZAGLIA and JEFFREY G. DUCKETT . . . 187

Continuity of chloroplast and endoplasmic reticulum membranes in *Phaseolus vulgaris*. By J. M. Whatley, B. McLean and B. E. Juniper 209

Development and structure of resin glands on tissues of *Betula pendula* Roth. during growth. By Seppo P. Lapinjoki, Heikki A. Elo and Hannu T. Taipale . . . 219

Uptake, accumulation and translocation of arsenate in arsenate-tolerant and non-tolerant *Holcus lanatus* L. By Andrew A. Meharg and Mark R. Macnair 225

Nitrogen transfer from nodulating soybean [*Glycine max* (L.) Merr.], to corn (*Zea mays* L.) and non-nodulating soybean in intercrops: direct ^{15}N labelling methods. By R. C. Martin, H. D. Voldeng and D. L. Smith 233

Which stage of nodule initiation in *Lupinus angustifolius* L. is sensitive to iron deficiency? By Caixian Tang, Alan D. Robson and Michael J. Dilworth 243

Fungal decomposition of attached angiosperm twigs. II. Moisture relations of twigs of ash (*Fraxinus excelsior* L.) By G. S. Griffith and Lynne Boddy 251

Fungal decomposition of attached angiosperm twigs. III. Effect of water potential and temperature on fungal growth, survival and decay of wood. By G. S. Griffith and Lynne Boddy 259

Ultrastructure of the *Gliocladium*-like endophyte of perennial ryegrass (*Lolium perenne* L.). I. Vegetative phase and leaf blade sporulation. By Melva N. Philipson . . . 271

Ultrastructure of the *Gliocladium*-like endophyte of perennial ryegrass (*Lolium perenne* L.). II. Sporulation in the leaf sheath. By Melva N. Philipson 281

Behaviour of zoospores and zoospore cysts in relation to root infection by *Pythium aphanidermatum*. By S. W. Jones, S. P. Donaldson and J. W. Deacon . . . 289

Lack of antagonism between the biocontrol agent *Gliocladium virens* and vesicular arbuscular mycorrhizal fungi. By T. C. Paulitz and R. G. Linderman . . . 303

Proteinase activity in mycorrhizal fungi III. Effects of protein, protein hydrolysate, glucose and ammonium on production of extracellular proteinase by *Hymenoscyphus ericae* (Read) Korf & Kernan. By J. R. Leake and D. J. Read 309

Effects of phosphorus fertilization and mycorrhizal development on phosphorus nutrition and carbon balance of loblolly pine. By J. V. D. Rousseau and C. P. P. Reid . . 319

Role for the photosynthate demand of ectomycorrhizas in the response of Douglas fir seedlings to drying soil. By M. G. Dosskey, L. Boersma and R. G. Linderman . 327

Superoxide dismutase activity in needles of Scots pine and Norway spruce under field and chamber conditions: lack of ozone effects. By Andrea Polle and Heinz Rennenberg 335

A facility for the large-scale exposure of plants to gaseous atmospheric pollutants. By C. R. Rafarel and T. W. Ashenden 345

Cataclysmic response to recent cooling of a natural boreal pine (*Pinus sylvestris* L.) forest in northern Sweden. By Leif Kullman 351

Reviews 361

MARCH 1991 VOLUME 117 NUMBER 3

Tansley Review No. 29.

Nutrient supply, nutrient demand and plant response to mycorrhizal infection. By Roger T. Koide 365

Regulation of nutrient transfer between host and fungus in vesicular–arbuscular mycorrhizas. By Suzanne M. Schwab, John A. Menge and P. B. Tinker. 387

Selective interactions between different species of mycorrhizal fungi and *Rhizobium meliloti* strains, and their effects on growth, N_2-fixation (^{15}N) and nutrition of *Medicago sativa* L. By R. Azcón, R. Rubio and J. M. Barea 399

Effects of liming on ectomycorrhizal fungi infecting *Pinus sylvestris* L. III. Saprophytic growth and host plant infection at different pH values in unsterile humus. By Susanne Erland and Bengt Söderström 405

Carbohydrate transport in discs of storage parenchyma of celery petioles. I. Uptake of glucose and fructose. By Beate Diettrich and Felix Keller 413

Carbohydrate transport in discs of storage parenchyma of celery petioles. 2. Uptake of mannitol. By FELIX KELLER 423

Effect of some triazole fungicides on intracellular pH and on cell membrane permeability in leaves of *Elodea densa* (Planch.) Casp. By G. ROMANI and N. BEFFAGNA . . 431

The influence of open-top chambers on the growth and development of field bean. By G. E. SANDERS, A. G. CLARK and J. J. COLLS 439

Arsenic, cobalt and nickel tolerances in two populations of *Silene vulgaris* (Moench) Garcke from Ontario, Canada. By GEORGIA PALIOURIS and THOMAS C. HUTCHINSON 449

Responses of growth, photosynthesis, and leaf conductance to white light irradiance and end-of-day red and far-red pulses in *Fuchsia magellanica* Lam. By P. J. APHALO, D. GIBSON and A. H. DI BENEDETTO 461

Ecophysiological comportment of the tropical CAM-tree *Clusia* in the field. I. Growth of *Clusia rosea* Jacq. on St John, US Virgin Islands, Lesser Antilles. By E. BALL, J. HANN, M. KLUGE, H. S. J. LEE, U. LÜTTGE, B. ORTHEN, M. POPP, A. SCHMITT and I. P. TING 473

Ecophysiological comportment of the tropical CAM-tree *Clusia* in the field. II. Modes of photosynthesis in trees and seedlings. By E. BALL, J. HANN, M. KLUGE, H. S. J. LEE, U. LÜTTGE, B. ORTHEN, M. POPP, A. SCHMITT and I. P. TING 483

Relationship of nutrients in water with biomass and nutrient accumulation of submerged macrophytes of a tropical wetland. By SHARDENDU and R. S. AMBASHT 493

The vegetational history of Glen Diomhan,, North Arran, site of endemic whitebeams, *Sorbus arranensis* Hedl. and *S. pseudofennica* E. F. Warb. By G. STEVEN and J. H. DICKSON 501

REVIEWS 507

APRIL 1991 VOLUME 117 NUMBER 4

Leaf area compensation and nutrient interactions in CO_2-enriched seedlings of yellow-poplar (*Liriodendron tulipifera* L.). By RICHARD J. NORBY and E. G. O'NEILL . . 515

Stomatal responses to abscisic acid in three lupin species. By I. E. HENSON and N. C. TURNER 529

Atmospheric pollution and the sensitivity of stomata on barley leaves to abscisic acid and carbon dioxide. By C. J. ATKINSON, P. A. WOOKEY and T. A. MANSFIELD . . . 535

A comparison of foliar wettability of red spruce and balsam fir growing at high elevation. By RICHARD L. BOYCE, DELBERT C. MCCUNE and GRAEME P. BERLYN . . . 543

Histological determination of ozone injury symptoms of primary needles of giant sequoia (*Sequoiadendron giganteum* Bucch.). By LANCE S. EVANS and MICHAEL R. LEONARD . 557

Accumulation of phenolic compounds in the necrotic areas of Austrian and red pine needles after spraying with sulphuric acid: a possible as a bioindicator of air pollution. By ALICJA ZOBEL and JAMES E. NIGHSWANDER 565

Absorption of atmospheric NO_2 by spruce (*Picea abies* L. Karst.) trees I. NO_2 influx and its correlation with nitrate reduction. By BARBARA THOENE, PETER SCHRÖDER, HANS PAPEN, ALFRED EGGER and HEINZ RENNENBERG 575

Leaf demography and the seasonal internal cycling of nitrogen in sycamore (*Acer pseudoplatanus* L.) seedlings in relation to nitrogen supply. By P. MILLARD and M. F. PROE 587

Induction of cadmium tolerance by acclimation transferred between ramets of the clonal fern *Salvinia minima* Baker. By P. M. OUTRIDGE and T. C. HUTCHINSON . . . 597

A reassessment of the influence of NAA on aerenchyma formation in maize roots. By S. H. F. W. JUSTIN and W. ARMSTRONG 607

Aberrant sieve element differentiation in primary leaves of *Vigna sinensis* Endl. affected by colchicine. By B. GALATIS 619

Fungal decomposition of attached angiosperm twigs. IV. Effect of water potential on interactions between fungi on agar and in wood. By G. S. GRIFFITH and LYNNE BODDY 633

Detection of extracellular cellulolytic and proteolytic activity in ectomycorrhizal fungi and *Heterobasidion annosum* (Fr.) Bref. By P. MAIJALA, K. V. FAGERSTEDT and M. RAUDASKOSKI 643

Effect of a vesicular–arbuscular mycorrhizal fungus and rhizosphere micro-organisms on manganese reduction in the rhizosphere and manganese concentrations in maize (*Zea mays* L.) By S. K. KOTHARI, H. MARSCHNER and V. RÖMHELD 649

Vesicular–arbuscular mycorrhizas respond to corn and soybean cropping history. By NANCY COLLINS JOHNSON, F. L. PFLEGER, R. KENT CROOKSTON, STEVE R. SIMMONS and PHILIP J. COPELAND 657

The role of nitrogen concentration in determining the outcome of the interaction between *Dactylorhiza incarnata* (L.) Soó and *Rhizoctonia* sp. By H. BEYRLE, F. PENNINGSFELD and B. HOCK 665

Seed dormancy in Mediterranean *Senecio vulgaris* L. By Z. REN and RICHARD J. ABBOTT 673

REVIEWS 679
